## SUMMARY

Senior Software Engineer with 5+ years of experience building production applications across Android, iOS, and web. Delivers end-to-end product systems spanning Flutter and React interfaces, FastAPI services, Firebase and PostgreSQL data, AI-assisted workflows, payments, and cloud deployment. Experienced in scalable architecture, CI/CD, code review, and mentoring engineers across healthcare, workforce, commerce, and consumer products.

## EXPERIENCE

### Senior Software Engineer | Lektik Consulting

Sep 2023 - Present | Infopark, Kakkanad, Kerala

- Build cross-platform healthcare, AI-assisted documentation, and enterprise workflow products for Android, iOS, and web.
- Deliver speech recognition, AI-generated clinical documentation, REST API and Firebase integrations, AppsFlyer analytics, payments, and cloud-connected features.
- Establish scalable Flutter architecture with BLoC and Provider, automate delivery with GitHub Actions, and mentor junior developers through code reviews and technical guidance.

### Flutter Developer | Reubro International

Jan 2022 - Aug 2023 | Kochi, Kerala

- Delivered Flutter products across social, dating, e-commerce, job-search, workforce, and web use cases.
- Integrated REST APIs, Firebase, BigCommerce, payments, and third-party services while improving release workflows through GitHub Actions.
- Reduced application crash rates by 30% through performance tuning, crash analytics, targeted bug fixes, and maintenance of legacy Java and Kotlin applications.

### Flutter Developer | Instyart Private Limited

Jan 2021 - Dec 2021 | Remote

- Built an academy operations platform covering enrollment, attendance, scheduling, instructor management, role-based access, and reporting.
- Implemented subscriptions and payments with Stripe, Apple In-App Purchase, and Google Play Billing.
- Delivered notifications, reminders, and operational analytics for revenue, attendance, and student activity.

## SELECTED PROJECTS

**CascadeMD | Lektik Consulting | Nov 2025 - Present | dictate.cascade.md**

- Architected an AI-assisted clinical documentation platform that turns dictated patient encounters into structured records for submission to a U.S. government service.
- Built speech recognition, role-based access, and secure external-submission workflows across mobile and web, reducing manual documentation steps for clinicians.

**Seequince | Lektik Consulting | Jan 2026 - Mar 2026**

- Built and published a field-workforce application for attendance, shift activity, and location compliance.
- Implemented GPS geofencing, background monitoring, automatic out-of-boundary session termination, scheduled tasks, and Firebase notifications.

**Sprinkle | Lektik Consulting | Jul 2024 - Nov 2025 | Google Play**

- Developed a cross-platform sports betting application using Flutter, clean architecture, and modular state management.
- Delivered authentication, subscriptions, payments, deep linking, local persistence, embedded web content, and location- and timezone-aware features.

**Narraited (Android, iOS & Web) | Lektik Consulting | 2023 - 2025 | app.narraited.com**

- Built an AI-powered biography platform with structured, chapter-based storytelling across mobile and web.
- Integrated speech recognition, recording and playback, multimedia, push notifications, responsive UI, and email, Google, and Apple sign-in.

**Ashadhara | Reubro International | Oct 2021 - Dec 2021**

- Developed a Kotlin application for a government health initiative, with an accessible questionnaire for users with limited digital literacy.
- Implemented SSL pinning, root detection, code obfuscation, screenshot protection, and automatic closure on compromised devices.

## CORE SKILLS

**Cross-platform engineering:** Flutter, Dart, React, Tailwind CSS, Jetpack Compose, responsive UI

**Architecture & state:** BLoC, Riverpod, Provider, GetX, clean architecture, design systems

**Backend & data:** Python, FastAPI, REST APIs, GraphQL, WebSockets, PostgreSQL, Firebase

**Cloud & delivery:** AWS ECS/ECR/RDS, Azure App Service, Docker, GitHub Actions, Codemagic

**Product systems:** AI integrations, payments and subscriptions, authentication, geofencing, deep linking, FCM, Crashlytics, AppsFlyer, mobile security

## EDUCATION

**Master of Computer Applications** | Indira Gandhi National Open University | Expected 2026

**Bachelor of Technology in Mechanical Engineering** | Universal Engineering College | 2016
